

- D. All medications shall be brought to school by the parent/guardian or adult pupil and shall be picked up at the end of the school year or the end of the period of medication, whichever is earlier;
- E. A student may self-administer medication without supervision of the school nurse for asthma or other life-threatening illnesses. "Life-threatening illness" has been defined as an illness or condition that requires an immediate response to specific symptoms or sequelae that if left untreated may lead to potential loss of life such as, but not limited to, the use of an inhaler to treat an asthma attack or the use of an adrenalin injection to treat a potential anaphylactic reaction.

#### PUPIL SELF-ADMINISTRATION OF MEDICATION

The board shall permit self-administration of medication for asthma or other potentially life-threatening illnesses by pupils who have the capability for self-administration of medication, both on school premises during regular school hours and off-site or after regular school hours when a pupil is participating in field trips or extracurricular activities. Parents/guardians of the pupil must meet the following conditions:

- A. Provide the board with written authorization for the pupil's self-administration of medication;
- B. Provide written certification from the pupil's physician that the pupil has asthma or another potentially life-threatening illness and is capable of and has been instructed in the proper method of self-administration of medication;
- C. Sign a statement acknowledging that the district shall incur no liability as a result of any injury arising from the self-administration of medication by the pupil and that the parents/guardians shall indemnify and hold harmless the district and its employees or agents against any claims arising out of the self-administration of medication by the pupil;
- D. Maintain the right to revoke a pupil's permission to self-medicate if he/she has failed to comply with all conditions of this policy and/or has violated in any way the tenets of the agreement to self-medicate. The superintendent shall confer with the school physician and school nurse prior to recommending termination of a pupil's permission to self-medicate and shall also consult with the pupil, the pupil's parents/guardians and the pupil's physician;
- E. The permission is effective for the school year for which it is granted and must be renewed for each subsequent school year.

Very truly yours,

Danny A. Robertozzi, Ed.D.  
Superintendent of Schools
